

## 2023 Coyote Run Farm Heirloom Tomato and other Plants Ordering Information

We have heirloom tomatoes, peppers, basil, and parsley this year. We've started more plants this year than in the recent past. Feel free to share this with friends and family.

To order plants, please send an email to [farm@coyote-run-farm.com](mailto:farm@coyote-run-farm.com). You can list plants in the email or use this form to mark the number of plants you want of each variety.

We are planning to deliver a few times to Des Moines at the end of April and the beginning of May. You can also schedule a time to pick up your plants at the farm.

All plants will be \$4 each or a full flat of 18 plants for \$66 (\$3.50 for each plant after 18).

Please order your plants ASAP to help us organize our sales and to ensure we are able to fill your order. We will fill orders on a first come basis based on when we receive your order. The sooner you get your order in the more likely we'll be able to fill it completely. We don't recommend planting until Mother's Day. All plants will be in 4 inch pots so you should be able to keep them healthy until planting time.

You are welcome to share this order form and pricing with others. People can find more information about us on our website [www.coyote-run-farm.com](http://www.coyote-run-farm.com).
